A constituent college of Manipal University

Prof. & Head

Ref.:

Date: 26.6.2015

To whom it may concern

This is to certify that the Planmeca Promax Scara 3 Digital Pan/Ceph X-Ray Machine supplied to our department by Virgo Solutions has been functioning satisfactorily since its installation in November 2014. The images obtained are of excellent diagnostic quality. We are pleased with the post installation services and the support provided by the company whenever we needed any clarifications.

The conventional film based Planmeca Proline 2002 CC machine supplied to our department in 2000 by the same company is still functioning satisfactorily. Even when there is no maintenance contract with the company for the machine, the support provided is commendable and I wish to place this on record.

Dr Keerthilatha M Pai

Professor and Head
