

To Whomsoever It May Concern

This to certify that M/S Virgo Solutions, Bangalore, have supplied the Planmeca Promax 3D unit in the month of December 2012. They have been able to arrange for the quick delivery of the same. They have also assisted us in the smooth clearing of the same from Customs at Dabolim Airport Goa.

The engineers from Virgo Solutions have been able to install and train our operators quickly for the smooth and effective functioning of the machine. Application support on software and the effective use of the same for the dental fraternity has been quickly established due to the same. The local dental fraternity has appreciated the quality and effective use of the same for their clinical diagnosis, implant applications etc.

We have no hesitation in recommending the same to any discerning buyer based on the merit of the machine and prompt service of the distributor.

Issued today 16th June 2013
