TO WHOMSOEVER CONCERNED

This to certify that M/S Virgo Solutions, Bangalore, have supplied the Planmeca Promax 3D unit in the month of April 2014. Their Aftersales service is good which is reflected in good operator training and smooth installation of the machine done at our centre In Davangere.

The engineers from Virgo Solutions have been able to install and train our operators quickly for the smooth and effective functioning of the machine. Application support on software and effective use of the same for the dental fraternity has been quickly established due to the same. The local dental fraternity has appreciated the quality and effective use of the same for their clinical diagnosis, implant applications etc tec.

We have no hesitation in recommending the same to any Discerning buyer.

Issued today 14th June 2014
